Subject: FW: California baseline for initial permits and renewals

Dear DTSC GPRA Team,

Please see the following email from my HQs.

I would like to have a call with you in the next couple of days to discuss the comments in the excel file and the notes in the email below.

Please let me know your availability once you had a chance to review it.

Thanks,

Mike Zabaneh, P.E.

Subject: California baseline for initial permits and renewals

Mike

I corrected the information we have for the baseline for California based on the file you sent (identified as the one from DTSC 9-26-13). I also made edits based on our discussion last month.

I could not add some that were, for example not listed in RCRAInfo or had been clean closed before the cycle. I made notes about the units where I was not able to add the facilities or where we retained a few that were not on your list.

Please see the attachment.

I have a few notes where I see that the legal and operating status codes still need to be updated in RCRAInfo.
